

## **Bradley Woods closed to public**

**January 11 – March 11**

The Cleveland Metroparks will continue its deer management program this winter. A portion of the Bradley Woods Reservation is within the municipal boundaries of the City of Westlake and a deer herd reduction is planned for this area.

During the period of January 11 through March 11, the main area of Bradley Woods will be closed to the public. This program has been initiated for the purpose of re-establishing a balanced ecosystem. Of course, safety remains the number one goal. Cleveland Metroparks has worked hard to insure that the deer management program is safe, humane and effective.

Contact Mr. Vern Hartenburg at 216-635-3295 for additional information.
