

## **NOW OPEN!**

### **New restroom facilities at BRADLEY NATURE PARK**

**In July, 2009, new restroom facilities at Bradley Nature Park were installed and the surrounding area landscaped. A water fountain was also installed nearby. The fountain accommodates humans and at a lower level it provides a place for pets to get a drink.**

**The 12 ft. x 22 ft. pre-cast concrete restroom consists of men's and women's facilities. It also includes automated lighting and ventilation, warm up heat for spring/fall use, "green" hot air hand dryers, hot/cold water, baby changing station and stainless steel fixtures.**

**This new restroom facility was literally dropped into place. To see photos of the facility being unloaded and set in place, [click here](#).**
