CROCKER PARK STOREFRONT AND SIGN

APPLICATION INSTRUCTIONS AND APPROVAL PROCESS DESCRIPTION

This instruction sheet and the attached application forms are for ***Crocker Park*** storefronts and signs only. The Crocker Park Planned Unit Development (PUD) is governed by two design documents, both of which are authorized by city ordinance and form the basis of the required Planning Commission review and approval of storefront designs.

Plans and elevations for storefronts submitted for Planning Commission consideration shall include the design and placement of all signs. In addition to the storefront application, applicants shall also include sign application(s). Note that sign permit(s) and storefront construction permit(s) are issued separately by the Building Department.

For sign(s) only, to be placed on existing and/or previously approved storefront/façades, applicants shall submit sign applications to the Building Department for administrative review and approval without the need of Planning Commission review and approval. If Building Department staff, upon the advice of Planning Department staff, determine that signs are in compliance, the applicant may proceed to obtain a sign permit. If signs are not in compliance, the applicant shall be notified that a full Planning Commission submission/approval process is required.

Included in this package are the following forms:

- ***Crocker Park Storefront & Sign Application***

The following guidelines are available from the landlord in print form or via the City of Westlake's website (www.cityofwestlake.org/Planning-Department):
