

2018 LEAF COLLECTION

Spring Clean-Up Days – Leaf Collection (COMPLETED)

April 23 – 27 and April 30 – May 4

Fall Leaf Collection

October 22 – early December (weather permitting)

(Scroll down for Daily Update)

LEAVES ONLY – do not mix branches or grass cuttings with leaves as this will plug machines and slow the collection process. Please remember to place leaves on the tree lawn and **not in the street.**

Addresses with leaves piles in the street will be reported to Westlake Police. Please do **NOT** park vehicles in front of leaf piles. If a vehicle is blocking a leaf pile, we will be unable to pick it up and you will have to wait until the next collection. Please keep catch basins in the street in front of your house clear by removing grass clippings, brush, and leaves that may collect there. This will help prevent flooding during heavy rains.

We will be updating this site on a daily basis so that residents can check to see when we will be picking up leaves in their area of the city. We generally go from route to route in numerical order. If you see on the Daily Update (below) that we are working on, or have just completed, a route that is shortly before your route, it would be advisable to get your leaves raked out as soon as possible.

Also bear in mind that the leaf crews work rain or shine. **It is not possible to come back to pick up leaves that were put out after we have passed your house.** If you do not want to wait for our leaf trucks to pick up in your area, you can bag your leaves for trash and Rumpke will pick them up on your regular collection day. If you have any questions please call us at (440) 835-6432.
