

Clean Water

One day when Jake set off to school  
His teacher said water is cool  
It's important to keep it clean  
Said his great teacher Mr. Green

Do not drive just ride a bike  
Pick up all trash while on a hike  
Turn sinks of said Jake gratefully  
Now you got it and now you see  
Water is important to me

So now when your parents ask you  
What else at school did you do  
You need to keep all water clean  
Who told you this  
Who told you this  
Well Mr. Green
