

Healthy, Clean Water

Healthy, clean water flowing
Healthy, green plants are growing
Water flowing to the lake
From rain to hail to snowflake

Pollutants swirling, flowing through
We can stop this, me and you
Clean the streams and pick up trash
So nature and man don't clash

Plants prevent this poison spreading
We help by watershedding
We drain rain into a pond
With nature we have this bond

Healthy, clean water flowing
Healthy, green plants are growing
Water flowing to the lake
From rain to hail to snowflake
